Summary

Motivated MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in REST APIs, authentication systems, cloud image storage, and workflow automation using n8n. Passionate about developing scalable applications and learning modern AI technologies.

Skills

Programming Languages: JavaScript, Python

Frontend: HTML, CSS, React, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, SQL

AI & Automation: n8n, Workflow Automation, API Integration

Tools: n8n, Git, GitHub, Postman, Hopscotch, VS code

Experience

AI Automation Intern

Learning Owl Pvt Ltd | Oct 2025 - April 2026

- Built automation workflows using n8n for process optimization.
- Integrated REST APIs and third-party services for automated data flow.
- Developed frontend interfaces using React.js, HTML, CSS, and JavaScript.
- Connected frontend with backend services using Node.js and Express.js APIs.
- Worked with webhooks, JSON data handling, and CRUD operations.
- Improved workflow efficiency through testing and automation optimization.

Projects

1. DevVault - GitHub Inspired Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a GitHub-inspired full-stack platform for managing repositories and tracking issues.
- Implemented secure user authentication and authorization for protected access.
- Built an interactive dashboard for repository creation, management, and activity monitoring.
- Created custom CLI commands using Yargs to simulate Git operations like init, commit, push, and pull.
- Designed modular database schemas for users, repositories, and issues using MongoDB Atlas.
- Integrated frontend and backend using REST APIs for seamless data communication.

2. WanderLust – Airbnb Clone

Tech Stack: Node.js, Express.js, MongoDB, EJS, Passport.js, Bootstrap, Cloudinary

- Engineered a full-stack accommodation booking platform inspired by Airbnb with dynamic property management features.
- Developed secure authentication and authorization system for users and property owners.
- Implemented property listing management with complete CRUD operations.
- Integrated Cloudinary for scalable cloud image upload and storage.
- Built server-rendered dynamic pages using EJS templates for optimized rendering.
- Added review and rating functionality to improve user engagement.
- Implemented backend validations, flash messages, and centralized error handling.
- Designed responsive and user-friendly interfaces using Bootstrap and custom CSS.

Education

Annasaheb Chudaman Patil College of Engineering, Mumbai University

2021 - 2025

Bachelor of Computer Science And Engineering (IOT, CyberSecurity with Blockchain Technology)

Certification

- Full Stack web development | [Certificate](#)
- Python for Data Science | [Certificate](#)
- Data Science Job simulation | [Certificate](#)
